

WRITE A FUNCTION TO COMPARE TIME

PROJECT NAME	Personal Assistance for Seniors Who Are Self-Reliant
TEAM ID	PNT2022TMID29008

The screenshot displays the NodeMCU interface in the IoT Studio console. The interface shows a list of devices, with 'NODEMCU_1' selected and connected. Below the device list, there is a section for 'Recent Events' showing a log of events. The events are listed in a table with columns: Event, Value, Format, and Last Received. The events are all 'join' events, and the values are formatted as '[\"191\";10;\"191\";10;\"Take Tablet\";\"Tablet Time\"]'. The 'Last Received' column shows 'a few seconds ago' for each event. At the bottom, a status bar indicates '1 Simulation running'.
